

Alex Chen

alex.chen@email.com | +44 7xxx xxxxxx | London, UK

Professional Summary

Senior Backend Engineer with 6+ years building scalable APIs and microservices. Expert in Python, Django, FastAPI, PostgreSQL, and AWS. Led migration from monolith to microservices reducing latency by 40%.

Technical Skills

Python, Django, FastAPI, PostgreSQL, Redis, Docker, Kubernetes, AWS, Microservices, REST APIs, GraphQL, CI/CD, Git, Linux, Terraform

Professional Experience

Senior Backend Engineer - FinTech Solutions Ltd

2021-Present

- Design and maintain high-throughput payment processing APIs handling 10M+ transactions/day
- Migrated legacy monolith to microservices architecture using Docker/Kubernetes
- Optimised PostgreSQL queries reducing p99 latency from 800ms to 120ms
- Implemented event-driven architecture with Kafka for async processing
- Mentored 4 junior engineers and established code review standards

Backend Developer - TechStart.io

2018-2021

- Built RESTful APIs with Django REST Framework serving 500k+ MAU
- Designed database schemas and wrote complex SQL queries for analytics
- Set up CI/CD pipelines with GitHub Actions and deployed to AWS ECS
- Implemented caching layer with Redis reducing API response time by 60%

Education

- MSc Computer Science, University College London (2018)
- BSc Software Engineering, King's College London (2016)
