

Priya Sharma

priya.sharma@email.com | +44 7xxx xxxxxx | Manchester, UK

Professional Summary

ML Engineer specialising in NLP and computer vision. 4 years deploying ML models to production. Strong in PyTorch, TensorFlow, MLOps, and cloud ML platforms. Published 2 papers at NeurIPS workshops.

Technical Skills

Python, PyTorch, TensorFlow, Scikit-learn, Pandas, NumPy, Hugging Face, MLflow, Kubeflow, Docker, Kubernetes, AWS SageMaker, GCP Vertex AI, SQL, Git, Linux

Professional Experience

ML Engineer - AI Innovations Ltd

2020-Present

- Built and deployed NLP models for document classification (95% F1) using BERT/RoBERTa
- Designed ML pipelines with MLflow for experiment tracking and model versioning
- Implemented real-time inference API with FastAPI handling 10k req/min
- Fine-tuned LLMs for domain-specific tasks using LoRA/PEFT techniques
- Collaborated with data engineering on feature store and data quality monitoring

Data Scientist - Analytics Pro

2018-2020

- Developed predictive models for customer churn (AUC 0.92) using XGBoost
- Built computer vision pipeline for defect detection with YOLOv5
- Created automated retraining pipelines with Airflow and Kubernetes
- Presented findings to stakeholders and translated business requirements to ML problems

Education

MSc Machine Learning, University of Manchester (2018)

BSc Mathematics, University of Edinburgh (2016)
