sarah.ahmed@email.com | +44 7xxx xxxxxx | Edinburgh, UK

Professional Summary

DevOps/SRE Engineer with 5 years managing cloud infrastructure at scale. Expert in Kubernetes, Terraform, AWS/GCP, and observability. Reduced deployment time from 2 hours to 15 minutes.

Technical Skills

Kubernetes, Docker, Terraform, AWS, GCP, Azure, Helm, ArgoCD, Prometheus, Grafana, ELK Stack, Linux, Bash, Python, Go, CI/CD, GitLab, GitHub Actions, Networking, Security

Professional Experience

Senior DevOps Engineer - CloudScale Systems

2020-Present

- Architected multi-region Kubernetes clusters on EKS/GKE serving 100+ services
- Implemented GitOps with ArgoCD for zero-downtime deployments
- Built infrastructure as code with Terraform managing 200+ resources
- Designed observability stack: Prometheus, Grafana, Loki, Tempo
- Reduced cloud costs by 35% through rightsizing and spot instances
- Established SLO/SLI framework and incident response procedures

DevOps Engineer - StartupXYZ

2018-2020

- Migrated from VMs to Kubernetes reducing deployment failures by 80%
- Set up CI/CD pipelines for 20+ microservices
- Implemented secrets management with Vault and external-secrets operator
- Automated backup and disaster recovery procedures

Education

MSc Cloud Computing, University of Edinburgh (2018)
BEng Computer Systems, Heriot-Watt University (2016)
