

Michael O Connor

michael.oconnor@email.com | +44 7xxx xxxxxx | Dublin, Ireland (Remote UK)

Professional Summary

Data Engineer with 6 years building scalable data platforms. Expert in Spark, Airflow, Kafka, and modern data stack (dbt, Snowflake). Built real-time pipelines processing 1TB+/day.

Technical Skills

Python, SQL, Spark, PySpark, Airflow, Kafka, dbt, Snowflake, BigQuery, Redshift, Docker, Kubernetes, AWS, GCP, Terraform, Git, CI/CD, Data Modeling, Data Quality

Professional Experience

Senior Data Engineer - DataFlow Analytics

2020-Present

- Built ELT pipelines with Airflow/dbt processing 1TB+ daily on Snowflake
- Designed real-time streaming architecture with Kafka and Spark Structured Streaming
- Implemented data contracts and schema evolution with Confluent Schema Registry
- Built data quality framework with Great Expectations reducing incidents by 70%
- Migrated legacy ETL from Informatica to modern stack saving 200k/year

Data Engineer - E-commerce Corp

2017-2020

- Built batch pipelines with Spark on EMR for customer 360 view
- Implemented change data capture (CDC) with Debezium for real-time sync
- Designed star-schema data warehouse on Redshift for BI reporting
- Optimised Spark jobs reducing runtime from 4 hours to 45 minutes

Education

MSc Data Science, Trinity College Dublin (2017)

BSc Computer Science, University College Dublin (2015)
